EDUCATION

SRM Institute of Science and Technology

B.Tech in Computer Science and engineering - 9.11 CGPA

Kattankulathur, Tamil Nadu

July. 2020 – Currently

Burn Hall School

Class XII - 92.2%

Srinagar, J&K

2019 – 2020

Burn Hall School

Class X - 92%

Srinagar, J&K

2017 – 2018

EXPERIENCE

Web Development Internship

February 2022 – March 2022

BooksApp

Remote

- * Developed a landing page for a Cargo company based in Dubai using HTML, CSS, JavaScript and Bootstrap.
- * Worked on the Navbar and Different Sections of the Website.
- * Attended daily reviews with the manager of BooksApp.

PROJECTS

Chat Mobile App | Flutter, Dart, Firebase, Firestore database

August 2023 – August 2023

[Github Link](#)

- * Developed a Full stack Chatting Mobile App where a person can Login/ Sign up, upload a photo and can start chatting. It also has the functionality of push notifications and user authentication.
- * I used Flutter and Dart for developing it. For the backend I used Firebase, which also handled user authentication and for database used Firestore database.

Shopping List Mobile App | Flutter, Dart, Firebase, Firebase Realtime database

July 2023 – August 2023

[Github Link](#)

- * Developed a Full Stack Shopping List App, where a user can add grocery items to the list for shopping. It gives options to add items with different categories and quantities. We can delete items from the list by swiping left or right.
- * I developed the app using Flutter and Dart. For the backend I used Firebase and for storing List items I used Firebase Realtime database.

Finance Dashboard Web App - Backend | NodeJs, ExpressJs, MongoDB, Mongoose

February 2023 – February 2023

[Live Link](#), [Github Backend Link](#), [Github Frontend Link](#)

- * This Dashboard is a team project and I have developed its Backend. It's a full-stack dashboard which involves various charts, tables and a scatter plot for displaying revenue, expenses, profit, product prices, list of products and transactions of an organisation. It also has a predictions page for predicting the revenue for the next year.
- * In the backend, I worked on NodeJs with ExpressJs and MongoDB with Mongoose.

TECHNICAL SKILLS & CONCEPTS

Skills: C/C++, SQL, Dart, Flutter, Node.js, Express.js, MongoDB, Mongoose

Concepts: Data Structures and Algorithms, Database Management System, Object oriented programming, Operating system

HOBBIES

- * Football
- * PC Gaming
- * Cooking
- * Swimming
